HULL TECHNOLOGY

The innovative characteristics of a Tropida

BOW STEPS & ANTIDIVE SYSTEM

at the bow reduce the resistance and the reaction of the bow when it comes in contact with the waves, thus preventing stuffing and minimizing deceleration, especially when traveling in following seas.

HARD NOSE follows exactly the aerodynamic profile of the boat, ending in a sharp acute angle, while the tubes are build in the aft of the deck.

Deep-V, the technology of **ventilated steps** and the **double chine effect**, makes GENESIS31 extremely soft in rough seas, always maintaining the proper ride attitude, keeping the spray away from the deck and passengers.

GENESIS 31

CONSTRUCTION QUALITY

Premium designs needs high quality of construction.

TROPIDA ribs are *HAND MADE* .

We use only the latest supreme high-tech materials, as vinylester resins, epoxy resins, carbon and biaxial fibres, without plank wood or any kind of wood at transom and on stringers, to achieve the solid and strong construction.

We choose the best and long life accessories, to give our customers the piece of mind they need to enjoy their precious leisure time.

DECK DESIGN

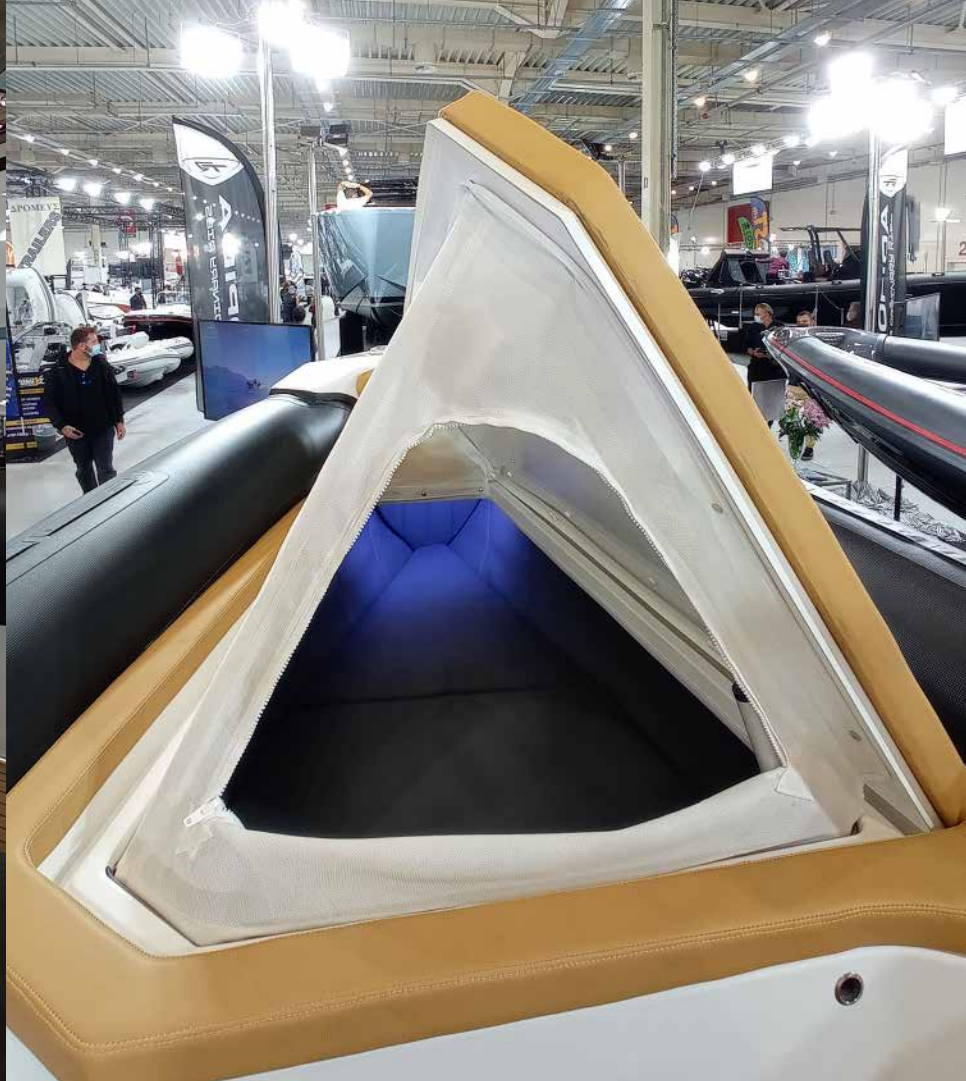

Ergonomically designed deck with large storage spaces. Comfortable U shape sofa at the stern which incorporates two more folding anatomical seats, anatomical & shock-absorbing helm seats, the sundeck at the bow with the possibility of converting it into an enclosed sleeping area.

Special design, aerodynamic center console with its two comfortable front seats. The panel with panoramic design, allows the captain to read with a quick glance all the instruments. It houses GPS12", has space for instruments and a vessel control type screen, ergonomic control base and space for joystick, shelf for small items and large storage or WC space.

Seats are designed by Takis Samartzis, offers exemplary comfort and safety. They are supported by SHOXS telescopic suspensions. The whole boat is lined with high quality synthetic teak, with special aesthetics, resistance to time and the difficulties of the sea, and with zero maintenance.

The color combinations of the upholstery are vast, so that everyone can choose what he prefers.

STANDARD EQUIPMENT

- Aerodynamic center console
- Windscreen with anodized INOX grip
- Two seats on the front of console (optional)
- Anatomic «U» shape sofa
- Double sunbed at the bow
- Anatomic-folding bucket type helm seats
- High quality marine upholstery
- Tubes Hypalon Neoprene ORCA 1670 DTEX
- Electric winch at the bow with thermal switch
- BRUCE type INOX anchor, chain
- LED Recessed navigation lights
- LED Deck lights, indoor lights
- LED INOX Buttons (Blue Sea)
- Recessed horn
- Two batteries 100A
- Marine cables with protection
- Both switch
- Voltmeter, two USB ports and lighter
- Electrical fuse board
- Automatic-electric bilge pump
- Automatic-electric water pump
- Two ice boxes at sofa
- Synthetic teak on deck
- Two Aviation type fuel filling caps (Sea Smart)
- Folding cleats at the stern (Sea Smart)
- INOX mooring ring
- INOX folding cleats at the bow
- INOX TROPIDA handles
- INOX water filling cap
- INOX Drainers & caps
- INOX Ventilators
- INOX rotating cleats
- INOX cleats with locker
- INOX Recessed shower at the stern
- INOX Telescopic-folding swim ladder
- Swim ladder with lid
- Storage space for ropes at the bow
- Large storage space at the bow
- Side lockers in bow storage space
- Console locker and net for small items
- Manual air-pump for tubes

ADDITIONAL EQUIPMENT

- Telescopic seat suspension (SHOXS)
- Two extra anatomic-folding seats
- Rotating seat mechanism
- Two folding seats at the sofa
- Sleeping area under the bow sundeck
- Aluminium T-top
- Wetbar with sink and faucet
- Electric fridge in wetbar
- Electric winch at stern
- Winch remote control
- Chain counter
- Electric or chemical nautical toilet in console
- Electric opening at bow and stern lid
- Electric height adjustable table / removable table
- GPS 9"
- GPS 12"
- VHF
- C-Zone (control & monitoring electrical systems)
- Soundsystem FUSION APOLLO with four speakers
- Additional speakers
- Wireless phone charger
- LED Pop-up light
- LED Underwater lights
- Electrohydraulic flaps
- Electrohydraulic bracket
- Quick lock device
- Sun tent with Carbon fiber poles
- Folding sun tent at stern
- Carbon fiber dashboard
- Cupholders
- Real teak flooring
- EVA foam flooring
- Electric air-pump for tubes
- Boat parking cover
- Console cover
